

Problem B. Sort 0s and 1s

OS Linux

You are given an array of 0's and 1's. Sort the array in ascending order and print it.

Note: Solve using two-pointer technique.

Input Format

First line of input contains T - the number of test cases. Its followed by 2T lines, the first line contains N - the size of the array.

The second line contains the elements of the array.

Constraints

$$1 \leq T \leq 1000$$

$$1 \leq N \leq 1000$$

$$0 \leq A[i] \leq 1$$

Output Format

For each test case, sort the array in ascending order and print it on a new line.

Input	Output
2	0 0 1 1 1
5	0 1 1 1 1 1
0 1 1 0 1	
6	
1 1 1 1 1 0	

Explanation o

Self explanatory
